ENGL 1101 Composition I (C01)

Learning Communities (LCs) are courses that are held just for Dual Enrollment. Special population, with carefully selected professors and additional OWL Advising support. LCs create a more cohesive college experience for high school juniors and seniors by offering courses that assist with creating a sense of belonging, encouraging academic support and camaraderie, and helping students to forge a successful collegiate academic journey.

ENGL 1102 Composition II (C02)

This Dual Enrollment Learning Community is the second sequence of courses from term one which continues to support Dual Enrollment juniors and seniors in their academic journey of English and Math. LCs create a more cohesive college experience for high school juniors and seniors by offering courses that assist with creating a sense of belonging, encouraging academic support and camaraderie, and helping students to forge a successful collegiate academic journey.

GEOG 3900 Biogeography

Class will meet several times at the KSU Field Station for field research and learning. Readings, assignments and exams will be online.

GEOG 4405 Adv Geographic Information

Meets every other Thursday for the Spring 2022 semester with the following dates of: (January 13th, January 27th, February 10th, February 24th, March 17th, March 31st, April 14th, and April 28th).

MATH 1111 College Algebra (C01)

Learning Communities (LCs) are courses that are held just for Dual Enrollment's special population, with carefully selected professors and additional OWL Advising support. LCs create a more cohesive college experience for high school juniors and seniors by offering courses that assist with creating a sense of belonging, encouraging academic support and camaraderie, and helping students to forge a successful collegiate academic journey.

MATH 1113 Precalculus (C02)

This Dual Enrollment Learning Community is the second sequence of courses from term one which continues to support Dual Enrollment juniors and seniors in their academic journey of English and Math. LCs create a more cohesive college experience for high school juniors and seniors by offering courses that assist with creating a sense of belonging, encouraging academic support and camaraderie, and helping students to forge a successful collegiate academic journey.

MENT 4436 Topics Entertainment

From music to magazines, the connections between media and fashion are undeniable, and opportunities for communication graduates in this multi-billion-dollar industry are on the rise. In this 7-week online course, we'll explore how individuals communicate with fashion (including cosplay, historical dress, and streetwear) and how the fashion industry is portrayed in the media, especially in shows like Project Runway and HBO's The Hype. We'll also examine the skills needed for careers in fashion journalism and PR (including events and influencer engagement) and discuss current industry trends like sustainable fashion, pop-up shops, and high-tech design. This course is suitable for any major in the School of Communication and Media.

PSYC 2103 Human Development

For PSYC majors, course will substitute for PSYC 3305. If you have completed PSYC 3305, do not take PSYC 2103.
